

## **SECTION 01010 SUMMARY OF WORK**

### **PART 1 GENERAL**

#### **1.01 DESCRIPTION**

- A. The work to be performed under this Contract consists of furnishing and installing all labor, materials, tools, equipment and incidentals required to complete the Work.
- B. All work shall be as specified and in accordance with the City of Atlanta, Department of Watershed Management and Department of Public Works standards.

#### **1.02 PROJECT LOCATION**

The Work of this Contract is located in the City of Atlanta, Georgia, as shown in the Drawings included as part of the Technical Specifications.

#### **1.03 SCOPE OF WORK**

A. The Work of this Contract is outlined in the Technical Specifications and generally includes the following:

1. Construction services for installing storm pipes, curb inlets, replacing concrete curbs and sidewalks, pavement repair and resurfacing, and green infrastructure installation.
2. Coordination with existing utilities and relocating, as necessary.
3. Abandonment of existing utilities including water lines, sewers, storm drains, and appurtenances.
4. Furnishing and installing new utilities and appurtenances, as required.
5. Installing and transferring service connections, where required.
6. Connecting new utilities to existing, where required.
7. Plantings on the Project site.
8. Temporary and permanent erosion and sedimentation control.
9. Traffic control during construction.
10. Right-of-way restoration, including pavement replacement.
11. All associated miscellaneous work, including site restoration and cleanup.
12. Environmental remediation of approximately 5,000 tons

B. The Contractor shall furnish and install all labor, materials, equipment and incidentals which are reasonable and properly inferable and necessary for the proper completion of the work, whether specifically indicated in the Contract Documents or not.

C. The Contractor shall perform the work complete, in place and ready for continuous service and shall include repairs, replacements and restoration required as a result of all damages that occur as a

result of construction under this contract.

#### 1.04 WORK COORDINATION

- A. The Contractor shall coordinate his/her work with all public and private utilities. The Contractor shall ensure that all utilities in each street are field marked by the utility owner or designated agent prior to beginning any excavation in that street.
- B. The Contractor shall also coordinate his/her work with owners of private and public property where access is required for the performance of the work. Legal access will be acquired and provided by the City DWM.

#### 1.05 CONDITIONS OF THE SITE

- A. The Contractor shall make all necessary investigations to determine the site conditions in the project area and any unique features that may affect the prosecution of the work.
- B. The Contractor will be held responsible for any damage to and for maintenance and protection of existing utilities and structures.

#### 1.06 PARTIAL CITY DWM OCCUPANCY

The existing facilities or pipelines to which these improvements are being made or connected to will remain in operation during construction.
