

To: All Prospective Bidders

From: DDC Engineers, Inc.

Date: November, 2015

We would like to take this opportunity to point out one especially critical provision of the construction contract documents, the bidder's representation.

Your careful reading of the bidder's representation is imperative because by signing and submitting it with your bid figure, you will be representing to the Owner that 1) your detailed examination of the drawings and specifications has turned up no ambiguities which need clarification, 2) only authorized data have been used to arrive at your bid figure, and 3) the experience and capabilities of your firm, your workmen and your subcontractors are particularly well-suited to the construction of this type of project.

Please note that each of your subcontractors must also submit a signed copy of the bidder's representation before the Owner can award the contract.

If you find that you are unable to sign this representation because you believe the drawings or specifications are inadequate or erroneous in some way, please notify us at once so that corrective action can be taken. Similarly, if your bid figure is affected by information not contained in the construction contract documents, contact us immediately before submitting your bid.

Also, we would like to point out that there will be a pre-bid site meeting at the Chestnut Road pump station site on Tuesday, December 01, 2015 at 10:00am.

UPGRADES TO CHESTNUT ROAD PUMP STATION

for

The City of Myrtle Beach, South Carolina

DIVISION 0 CONTRACT INFORMATION & DOCUMENTS

SECTION 0100 – NOTICE TO BIDDERS	1-1
